Randy/Clayton

Thanks so much for your time today and the continued support for the Golden Pass Products LNG export project. We very much appreciate your efforts to help us make this project a reality. As we discussed, I am attaching a sample draft letter of support (Word doc) for our project for submission to the US Department of Energy prior to February 4, 2013. Again, this is an example of a letter of support, so please feel free to amend and put into your own words. The example is set up for Randy's signature, but can certainly be authored by Paul or the entire board.

I have also attached a copy of the Federal Register announcement of our NFTA application and comment guidance for your reference.

Please feel free to give either Bill Davis or me a call if you have any questions.

Regards

Renny
