I spoke to Bill Hobbs about arranging an appointment for you with Dr. Fred Seitz, former head of Rockefeller University and the principal scientific advisor to the R. J. Reynolds medical research program. Bill told me that Dr. Seitz is quite elderly and not sufficiently rational to offer advice.

Bill said that he would strongly recommend your speaking to Dr. Alfred G. Knudson Jr. of the CTR Scientific Advisory Board. I asked Bill to proceed with arrangements to introduce you to Knudson and he said he would do so and get back to you or me.
