Congresswoman Lynn Schenk is one of 5 key swing Democratic health care votes in the Energy and Commerce Committee. There is reason to believe she is looking for reasons to vote against Clinton, and there is reason to believe she can be spooked on the tax issue, especially after her 1993 Budget vote. The word is that Congressman Dingell is promising her the moon.

An editorial from the most important paper in her district urging her to do the right thing for the right reason would obviously have a huge impact, and could be the straw that breaks the camel's back.

Our 3 latest health care efforts are attached.

Thank you.
