

**Texas Coal Plant**  
**Hourly Particulate Matter Emission Limits:**  
**During Maintenance/Startup/Shutdown**  
**Original Permit vs. Revised Permit**

**Notes:**

*Original particulate matter (PM) limits were obtained from final Texas Commission on Environmental Quality Maintenance Startup and Shutdown (MSS) permits. Limits for both the New Source Review and MSS permits were found in the Maximum Emission Rate Tables (MAERTs) for each of the listed permits. Limits for grouped units (i.e. Big Brown 1,2) apply to each unit.*

*\*Grandfathered plant. Maximum hourly emissions based on Maximum Heat Input x 0.3 lb/mmbtu PM Limit at 30 TAC 111.111(a)*
