### **2015 Annual Conference: Oklahoma City, OK**

We invite you to celebrate our 80th anniversary where it all started in Oklahoma City! This year's conference is not only a celebration of service, but a collaboration with two other well-respected organizations: [National Rural Water Association](#) (NRWA) and [Ground Water Protection Council](#) (GWPC).

With this year's chairman, Utah Governor Gary R. Herbert, and 2016 incoming chairman, Oklahoma Governor Mary Fallin, in attendance, the IOGCC will bring together state regulators, federal officials and oil and gas industry executives to identify emerging issues and address shared challenges.

Meeting participants will have an opportunity to engage in IOGCC activities as well as attend educational sessions and exhibits coordinated by NRWA and GWPC.

Join us September 27 - 30 in downtown Oklahoma City *Where Water and Energy Mix!*
