I contacted Ryan on March 3. He is trying to get an answer to me by end of the month.

Subject: Follow up on resolution

Lynn --

You will recall the resolution supported by Gov. Herbert was tabled at our previous meeting. It has been submitted for consideration again in Salt Lake. If I remember correctly (always questionable) Sen. Hoeven's office, Ryan Bernstein in particular, may have legal insights regarding the implications of the resolution. I'm going to e-mail him unless you have already do so regarding the latest developments regarding the delegation of authority re: public lands to the states.

Let me know if you have questions or comments.
